

Notification of parent(s)/guardian(s) due to medical reasons

The Health Officer of Camp Resolute, in consultation with the Reservation Director, will notify parents/guardians of an illness or injury in the event that one or more conditions are met.

- Significant injury necessitating transportation to a hospital
- Symptoms of a contagious illness including fever and/or vomiting
- Participant complaints that would necessitate overnight observation or care

Generally if a parent/guardian is to be contacted it would mean the participant needs to leave camp. Contact information from participant's health form is to be used to contact parent/guardian. A note in the Medical Log is to be made any time a parent/guardian is contacted.

In addition to contacting parent/guardian, the participant's scout leader should be notified to assist with accountability. The Administration Building should also be notified so that they may assist the parent/guardian to the Health Lodge.
